PROCEDURES RELATING TO THE IMPLEMENTATION OF THE COMMON
COMMERCIAL POLICY

EUROPEAN COMMISSION

**Notice of initiation of an expiry review of the anti-dumping measures applicable to imports of
bicycles originating in the People's Republic of China**

(2018/C 189/05)

Following the publication of a Notice of impending expiry⁽¹⁾ of the anti-dumping measures in force on the imports of bicycles originating in the People's Republic of China (the 'PRC' or 'the country concerned'), the European Commission ('the Commission') has received a request for review pursuant to Article 11(2) of Regulation (EU) 2016/1036 of the European Parliament and of the Council of 8 June 2016 on protection against dumped imports from countries not members of the European Union⁽²⁾ ('the basic Regulation').

1. Request for review

The request was lodged on 5 March 2018 by the European Bicycle Manufacturer's Association ('EBMA' or 'the applicant') on behalf of EU bicycle producers representing more than 45 % of the total Union production of bicycles.

2. Product under review

The product subject to this review is bicycles and other cycles (including delivery tricycles, but excluding unicycles), not motorised, falling within CN codes 8712 00 30 and ex 8712 00 70 (TARIC codes 8712 00 70 91, 8712 00 70 92 and 8712 00 70 99) ('the product under review').

3. Existing measures

The measures currently in force are a definitive anti-dumping duty imposed by Council Regulation (EU) No 502/2013⁽³⁾ of 29 May 2013, amending Council Implementing Regulation (EU) No 990/2011⁽⁴⁾ imposing a definitive anti-dumping duty on imports of bicycles originating in the PRC, following an interim review pursuant to Article 11(3) of the basic Regulation.

On the same date, the Council, by Implementing Regulation (EU) No 501/2013⁽⁵⁾, extended the measures on imports of bicycles originating in the PRC to imports of bicycles consigned from Indonesia, Malaysia, Sri Lanka and Tunisia, whether declared as originating in Indonesia, Malaysia, Sri Lanka and Tunisia or not.

⁽¹⁾ OJ C 294, 5.9.2017, p. 3.

⁽²⁾ OJ L 176, 30.6.2016, p. 21.

⁽³⁾ Council Regulation (EU) No 502/2013 of 29 May 2013 amending Implementing Regulation (EU) No 990/2011 imposing a definitive anti-dumping duty on imports of bicycles originating in the People's Republic of China following an interim review pursuant to Article 11(3) of Regulation (EC) No 1225/2009 (OJ L 153, 5.6.2013, p. 17).

⁽⁴⁾ Council Implementing Regulation (EU) No 990/2011 of 3 October 2011 imposing a definitive anti-dumping duty on imports of bicycles originating in the People's Republic of China following an expiry review pursuant to Article 11(2) of the basic regulation (OJ L 261, 6.10.2011, p. 2).

⁽⁵⁾ Council Implementing Regulation (EU) No 501/2013 of 29 May 2013 extending the definitive anti-dumping duty imposed by Implementing Regulation (EU) No 990/2011 on imports of bicycles originating in the People's Republic of China to imports of bicycles consigned from Indonesia, Malaysia, Sri Lanka and Tunisia, whether declared as originating in Indonesia, Malaysia, Sri Lanka and Tunisia or not (OJ L 153, 5.6.2013, p. 1).

On 18 May 2015 the Commission, by Implementing Regulation (EU) 2015/776 ⁽¹⁾, extended the measures on imports of bicycles originating in the PRC to imports of bicycles consigned from Cambodia, Pakistan and the Philippines, whether declared as originating in Cambodia, Pakistan and the Philippines or not.

4. Grounds for the review

The request is based on the grounds that the expiry of the measures would be likely to result in continuation or recurrence of dumping and injury to the Union industry.

4.1. Allegation of likelihood of continuation or recurrence of dumping

The applicant claimed that it is not appropriate to use domestic prices and costs in the country concerned due to the existence of significant distortions within the meaning of point (b) of Article 2(6a) of the basic Regulation.

To substantiate the allegations of significant distortions, the applicant referred to the Commission Staff Working Document dated 20 December 2017 'Report on Significant Distortions in the Economy of the PRC for the purposes of the trade defence investigations' ⁽²⁾, describing the specific circumstances in the country concerned. In particular, the applicant refers to the sections on general distortions (e.g. land, energy and capital), and to the section on distortions in the steel, aluminium and chemical sectors, which are core materials used to a large extent in the production of almost all bicycle parts. The same document also stressed serious overcapacity problems in the steel and aluminium market in China concluding that prices in these sectors are not the result of free market forces.

As a result, in view of Article 2(6a) of the basic Regulation, the allegation of continuation or recurrence of dumping is based on a comparison of a constructed normal value on the basis of costs of production and sale reflecting undistorted prices or benchmarks in an appropriate representative country, with the export price (at ex-works level) of the product under review from the country concerned when sold for export to the Union. On that basis, the dumping margins calculated are significant for the country concerned.

In light of the information available, the Commission considers that there is sufficient evidence pursuant to Article 5(9) of the basic Regulation tending to show that, due to significant distortions affecting prices and costs, the use of domestic prices and costs in the country concerned is inappropriate, thus warranting the initiation of an investigation on the basis of Article 2(6a) of the basic Regulation.

4.2. Allegation of likelihood of continuation or recurrence of injury

The applicant has provided evidence that, should measures be allowed to lapse, the current import level of the product under review from the country concerned to the Union, which has remained significant in absolute terms, is likely to increase due to (i) the existence of a vast unused capacity of the exporting producers in the country concerned; and (ii) the attractiveness of the Union market in terms of volume and prices. In the absence of measures, Chinese export prices would be at a level low enough to further injure the Union industry, which still remains in a fragile situation.

The applicant finally alleges that the improvement of the injury situation of the Union industry is been mainly due to the existence of measures and that any further increase of imports at dumped prices from the country concerned would likely lead to a recurrence of injury to the Union industry should measures be allowed to lapse. Thus, the combined effect of low prices and large quantities would have a significant adverse effect on the overall situation of the Union industry, in particular on sales volumes, prices and profitability. In such a case, it is highly likely that injury emanating from dumped imports from the country concerned will recur and would damage substantially the overall performance of the Union industry.

5. Procedure

Having determined, after consulting the Committee established by Article 15(1) of the basic Regulation, that sufficient evidence exists to justify the initiation of an expiry review, the Commission hereby initiates a review in accordance with Article 11(2) of the basic Regulation.

The expiry review will determine whether the expiry of the measures would be likely to lead to a continuation or recurrence of dumping of the product under review originating in the country concerned and a continuation or recurrence of injury to the Union industry.

5.1. Review investigation period and period considered

The investigation of a continuation or recurrence of dumping will cover the period from 1 April 2017 to 31 March 2018 (the review investigation period). The examination of trends relevant for the assessment of the likelihood of a continuation or recurrence of injury will cover the period from 1 January 2014 to the end of the investigation period (the period considered).

5.2. Procedure for the determination of a likelihood of continuation or recurrence of dumping

In an expiry review, the Commission examines exports that were made to the Union in the review investigation period and, irrespective of exports to the Union, considers whether the situation of the companies producing and selling the product under review in the country concerned is such that exports at dumped prices to the Union would be likely to continue or recur if measures expire.

Therefore, all producers of the product under review from the country concerned, irrespective of whether or not they exported⁽¹⁾ the product under review to the Union in the review investigation period, are invited to participate in the Commission investigation.

5.2.1. Investigating producers in the country concerned

In view of the potentially large number of producers in the country concerned involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission may limit the producers to be investigated to a reasonable number by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 17 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary, and if so, to select a sample, all producers, or representatives acting on their behalf, including the ones who did not cooperate in the investigation leading to the measures subject to this review, are hereby requested to make themselves known to the Commission. Those parties have to do so within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified, by providing the Commission with the information on their company(ies) requested in Annex I to this Notice.

In order to obtain the information it deems necessary for the selection of the sample of producers, the Commission will also contact the authorities of the country concerned and may contact any known associations of producers.

All interested parties wishing to submit any other relevant information regarding the selection of the sample, excluding the information requested above, must do so within 21 days of the publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified.

If a sample is necessary, the producers will be selected based on the largest representative volume of production, sales or exports which can reasonably be investigated within the time available. All known producers, the authorities of the country concerned and associations of producers will be notified by the Commission, via the authorities of the country concerned if appropriate, of the companies selected to be in the sample.

In order to obtain the information it deems necessary for its investigation with regard to producers, the Commission will send questionnaires to the producers selected to be in the sample, to any known association of producers and to the authorities of the country concerned.

All producers selected to be in the sample will have to submit a completed questionnaire within 37 days from the date of notification of the sample selection, unless otherwise specified.

⁽¹⁾ A producer is any company in the country concerned which produces the product under review, including any of its related companies involved in the production, domestic sales or exports of the product under review.

Without prejudice to the possible application of Article 18 of the basic Regulation, companies that have agreed to their possible inclusion in the sample but are not selected to be in the sample will be considered to be cooperating ('non-sampled cooperating producers').

5.2.2. *Additional procedure with regard to the country concerned subject to significant distortions*

Pursuant to point (e) of Article 2(6a), the Commission will, shortly after initiation, by means of a note to the file for inspection by interested parties, inform parties to the investigation about the relevant sources that it intends to use for the purpose of determining normal value in the PRC pursuant to Article 2(6a) of the basic Regulation. This will cover all sources, including the selection of an appropriate representative third country where appropriate. Parties to the investigation shall be given 10 days from the date at which that note is added to that file to submit comments.

According to the information available to the Commission, a possible representative third country for the PRC in this case is Turkey. With the aim of finally selecting the appropriate representative third country, the Commission will examine whether there is a similar level of economic development as the exporting country, whether there is production and sales of the product under review and whether relevant data are readily available. Where there is more than one such country, preference will be given, where appropriate, to countries with an adequate level of social and environmental protection.

With regard to the relevant sources, the Commission invites all producers in the country concerned to provide the information requested in Annex III to this Notice within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*.

In order to obtain the information it deems necessary for its investigation with regard to the alleged significant distortions within the meaning of point (b) of Article 2(6a) of the basic Regulation, the Commission will also send a questionnaire to the Government of the country concerned.

Subject to the provisions of this Notice, all interested parties are hereby invited to make their views known, submit information and provide supporting evidence regarding the application of Article 2(6a) of the basic Regulation.

Unless otherwise specified, such information and supporting evidence must reach the Commission within 37 days of the date of publication of this Notice in the *Official Journal of the European Union*.

5.2.3. *Investigating unrelated importers* ⁽¹⁾ ⁽²⁾

Unrelated importers of the product under review from the country concerned to the Union, including those that did not cooperate in the investigation leading to the measures in force, are invited to participate in this investigation.

In view of the potentially large number of unrelated importers involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission may limit to a reasonable number the unrelated importers that will be investigated by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 17 of the basic Regulation.

⁽¹⁾ Only importers not related to producers in the country concerned can be sampled. Importers that are related to producers have to fill in Annex I to the questionnaire for these exporting producers. In accordance with Article 127 of Commission Implementing Regulation (EU) 2015/2447 of 24 November 2015 laying down detailed rules for implementing certain provisions of Regulation (EU) No 952/2013 of the European Parliament and of the Council laying down the Union Customs Code, two persons shall be deemed to be related if: (a) they are officers or directors of the other person's business; (b) they are legally recognised partners in business; (c) they are employer and employee; (d) a third party directly or indirectly owns, controls or holds 5% or more of the outstanding voting stock or shares of both of them; (e) one of them directly or indirectly controls the other; (f) both of them are directly or indirectly controlled by a third person; (g) together they control a third person directly or indirectly; or (h) they are members of the same family (OJ L 343, 29.12.2015, p. 558). Persons shall be deemed to be members of the same family only if they stand in any of the following relationships to one another: (i) husband and wife, (ii) parent and child, (iii) brother and sister (whether by whole or half blood), (iv) grandparent and grandchild, (v) uncle or aunt and nephew or niece, (vi) parent-in-law and son-in-law or daughter-in-law, (vii) brother-in-law and sister-in-law. In accordance with Article 5(4) of Regulation (EU) No 952/2013 of the European Parliament and of the Council laying down the Union Customs Code, 'person' means a natural person, a legal person, and any association of persons which is not a legal person but which is recognised under Union or national law as having the capacity to perform legal acts (OJ L 269, 10.10.2013, p. 1).

⁽²⁾ The data provided by unrelated importers may also be used in relation to aspects of this investigation other than the determination of dumping.

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all unrelated importers, or representatives acting on their behalf, including the ones who did not cooperate in the investigation leading to the measures subject to the present review, are hereby requested to make themselves known to the Commission. Those parties must do so within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified, by providing the Commission with the information on their company(ies) requested in Annex II to this Notice.

In order to obtain information it deems necessary for the selection of the sample of unrelated importers, the Commission may also contact any known associations of importers.

All interested parties wishing to submit any other relevant information regarding the selection of the sample, excluding the information requested above, must do so within 21 days of the publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified.

If a sample is necessary, the importers may be selected based on the largest representative volume of sales of the product under review from the country concerned in the Union which can reasonably be investigated within the time available. All known unrelated importers and associations of importers will be notified by the Commission of the companies selected to be in the sample.

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the sampled unrelated importers and to any known association of importers. Those parties must submit a completed questionnaire within 37 days from the date of the notification of the sample selection, unless otherwise specified.

5.3. **Procedure for the determination of a likelihood of continuation or recurrence of injury**

In order to establish whether there is a likelihood of a continuation or recurrence of injury to the Union industry, Union producers of the product under review are invited to participate in the Commission investigation.

5.3.1. *Investigating Union producers*

In view of the large number of Union producers involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission has decided to limit to a reasonable number the Union producers that will be investigated by selecting a sample (this process is also referred to as 'sampling'). The sampling is carried out in accordance with Article 17 of the basic Regulation.

The Commission has provisionally selected a sample of Union producers. Details can be found in the file for inspection by interested parties. Interested parties are hereby invited to consult the file (for this they should contact the Commission using the contact details provided in Section 5.7 below). Other Union producers, or representatives acting on their behalf, including Union producers who did not cooperate in the investigation leading to the measures in force, that consider that there are reasons why they should be included in the sample must contact the Commission within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*.

All interested parties wishing to submit any other relevant information regarding the selection of the sample must do so within 21 days of the publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified.

All known Union producers and/or associations of Union producers will be notified by the Commission of the companies finally selected to be in the sample.

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the sampled Union producers and to any known associations of Union producers. Those parties must submit a completed questionnaire within 37 days from the date of the notification of the sample selection, unless otherwise specified.

5.4. **Procedure for the assessment of Union interest**

Should the likelihood of continuation or recurrence of dumping and injury be confirmed, a decision will be reached, pursuant to Article 21 of the basic Regulation, as to whether maintaining the anti-dumping measures would not be against the Union interest. Union producers, importers and their representative associations, users and their representative associations, and representative consumer organisations are invited to make themselves known within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified. In order to participate in the investigation, the representative consumer organisations have to demonstrate, within the same deadline, that there is an objective link between their activities and the product under review.

Parties that make themselves known within the 15 days' deadline may provide the Commission with information on the Union interest within 37 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified. That information may be provided either in a free format or by completing a questionnaire prepared by the Commission. In any case, information submitted pursuant to Article 21 of the basic Regulation will only be taken into account if supported by factual evidence at the time of submission.

5.5. **Other written submissions**

Subject to the provisions of this Notice, all interested parties are hereby invited to make their views known, submit information and provide supporting evidence.

Unless otherwise specified, such information and supporting evidence must reach the Commission within 37 days of the date of publication of this Notice in the *Official Journal of the European Union*.

5.6. **Possibility to be heard by the Commission investigation services**

All interested parties may request to be heard by the Commission investigation services. Any request to be heard must be made in writing and must specify the reasons for the request. For hearings on issues pertaining to the initial stage of the investigation the request must be submitted within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*. Thereafter, a request to be heard must be submitted within the specific deadlines set by the Commission in its communication with the parties.

5.7. **Instructions for making written submissions and sending completed questionnaires and correspondence**

Information submitted to the Commission for the purpose of trade defence investigations shall be free from copyrights. Interested parties, before submitting to the Commission information and/or data which is subject to third party copyrights, must request specific permission to the copyright holder explicitly allowing (a) the Commission to use the information and data for the purpose of this trade defence proceeding; and (b) to provide the information and/or data to interested parties to this investigation in a form that allows them to exercise their rights of defence.

All written submissions, including the information requested in this Notice, completed questionnaires and correspondence provided by interested parties for which confidential treatment is requested shall be labelled 'Limited' ⁽¹⁾. Parties submitting information in the course of this investigation are invited to reason their request for confidential treatment.

Interested parties providing 'Limited' information are required to furnish non-confidential summaries of it pursuant to Article 19(2) of the basic Regulation, which will be labelled 'For inspection by interested parties'. Those summaries must be sufficiently detailed to permit a reasonable understanding of the substance of the information submitted in confidence. If a party providing confidential information fails to show good cause for a confidential treatment request or does not furnish a non-confidential summary of it in the requested format and quality, the Commission may disregard such information unless it can be satisfactorily demonstrated from appropriate sources that the information is correct.

Interested parties are invited to make all submissions and requests by email including scanned powers of attorney and certification sheets, with the exception of voluminous replies which shall be submitted on a CD-ROM or DVD by hand or by registered mail. By using email, interested parties express their agreement with the rules applicable to electronic submissions contained in the document 'CORRESPONDENCE WITH THE EUROPEAN COMMISSION IN TRADE DEFENCE CASES' published on the website of the Directorate-General for Trade: http://trade.ec.europa.eu/doclib/docs/2011/june/tradoc_148003.pdf The interested parties must indicate their name, address, telephone and a valid email address and they should ensure that the provided email address is a functioning official business email which is checked on a daily basis. Once contact details are provided, the Commission will communicate with interested parties by email only, unless they explicitly request to receive all documents from the Commission by another means of communication or unless the nature of the document to be sent requires the use of a registered mail. For further rules and information concerning correspondence with the Commission including principles that apply to submissions by email, interested parties should consult the communication instructions with interested parties referred to above.

⁽¹⁾ A 'Limited' document is a document which is considered confidential pursuant to Article 19 of the basic Regulation and Article 6 of the WTO Agreement on Implementation of Article VI of the GATT 1994 (Anti-Dumping Agreement). It is also a document protected pursuant to Article 4 of Regulation (EC) No 1049/2001 of the European Parliament and of the Council (OJ L 145, 31.5.2001, p. 43).

6. Non-cooperation

In cases where any interested party refuses access to or does not provide the necessary information within the time limits, or significantly impedes the investigation, findings, affirmative or negative, may be made on the basis of facts available, in accordance with Article 18 of the basic Regulation.

Where it is found that any interested party has supplied false or misleading information, the information may be disregarded and use may be made of facts available.

If an interested party does not cooperate or cooperates only partially and findings are therefore based on facts available in accordance with Article 18 of the basic Regulation, the result may be less favourable to that party than if it had cooperated.

Failure to give a computerised response shall not be deemed to constitute non-cooperation, provided that the interested party shows that presenting the response as requested would result in an unreasonable extra burden or unreasonable additional cost. The interested party should immediately contact the Commission.

7. Hearing Officer

Interested parties may request the intervention of the Hearing Officer in trade proceedings. The Hearing Officer acts as an interface between the interested parties and the Commission investigation services. The Hearing Officer reviews requests for access to the file, disputes regarding the confidentiality of documents, requests for extension of time limits and requests by third parties to be heard. The Hearing Officer may organise a hearing with an individual interested party and mediate to ensure that the interested parties' rights of defence are being fully exercised.

A request for a hearing with the Hearing Officer should be made in writing and should specify the reasons for the request. For hearings on issues pertaining to the initial stage of the investigation the request must be submitted within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*.

For further information and contact details interested parties may consult the Hearing Officer's web pages on DG Trade's website: <http://ec.europa.eu/trade/trade-policy-and-you/contacts/hearing-officer/>

8. Schedule of the investigation

The investigation will be concluded, pursuant to Article 11(5) of the basic Regulation within 15 months of the date of the publication of this Notice in the *Official Journal of the European Union*.

9. Possibility to request a review under Article 11(3) of the basic Regulation

As this expiry review is initiated in accordance with the provisions of Article 11(2) of the basic Regulation, the findings thereof will not lead to the existing measures being amended but will lead to those measures being repealed or maintained in accordance with Article 11(6) of the basic Regulation.

If any interested party considers that a review of the measures is warranted so as to allow for the possibility to amend the measures, that party may request a review pursuant to Article 11(3) of the basic Regulation.

Parties wishing to request such a review, which would be carried out independently of the expiry review mentioned in this Notice, may contact the Commission at the address given above.

10. **Processing of personal data**

Any personal data collected in this investigation will be treated in accordance with Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data ⁽¹⁾.

4. OTHER INFORMATION

Please provide any other relevant information which the company considers useful to assist the Commission in the selection of the sample.

5. CERTIFICATION

By providing the above information, the company agrees to its possible inclusion in the sample. If the company is selected to be part of the sample, this will involve completing a questionnaire and accepting a visit at its premises in order to verify its response. If the company indicates that it does not agree to its possible inclusion in the sample, it will be deemed not to have cooperated in the investigation. The Commission's findings for non-cooperating importers are based on the facts available and the result may be less favourable to that company than if it had cooperated.
